

INFORMATION FOR BENEFIT OF PROSPECTIVE CANDIDATES PLANNING FOR CISA CERTIFICATION.

Who Earns CISA Certification?

More than 75,000 professionals in nearly 160 countries have earned the Certified Information Systems Auditor (CISA) certification since its inception in 1978.

The CISA designation was created for professionals with work experience in information systems auditing, control or security that include:

- Information Systems (IS) audit process
- IT Governance
- Systems and Infrastructure Lifecycle Management
- IT Service Delivery and Support
- Protection of Information Assets
- Business Continuity and Disaster Recovery

For more information, see [Job Practice Areas](#).

Why CISA?

CISA demonstrates proven experience: With a growing demand for professionals possessing IS audit, control and security skills, CISA has become the preferred certification program by individuals and organizations around the world. Many enterprises and government agencies increasingly recognize, require and expect their IS and IT professionals to hold this certification.

CISA enhances credibility and recognition: CISA is globally recognized as the mark of excellence for the IS audit professional. CISA combines the achievement of passing a comprehensive examination with recognition of work and educational experience, providing you with credibility in the marketplace.

CISA means higher earning potential and career advancement: Recent independent studies consistently rank CISA as one of the highest paying and sought after IT certifications.

Why Certify ?

Get Recognized as an Expert in Your Profession

Earn the Certified Information Systems Auditor (CISA), Certified Information Security Manager (CISM), Certified in the Governance of Enterprise IT (CGEIT) or Certified in Risk and Information Systems Control (CRISC) certification.

ISACA certifications are globally accepted and recognized. They combine the achievement of passing an examination with credit for your work and educational experience, giving you the credibility you need to move ahead in your career. Certification proves to employers that you have what it takes to add value to their enterprise. In fact, many organizations and governmental agencies around the world require or recognize ISACA's certifications.

Independent studies consistently rate ISACA's designations among the highest paying IT and impactful certifications that an IT professional can earn. Earning and maintaining an ISACA certification:

- Boosts your earning potential
- Counts in the hiring process
- Enhances your professional credibility and recognition

The CISA examination is offered twice a year, in June and December. The [Examination Registration Information \(Bulletin of Information\)](#) is published online when it becomes available for each examination.

CSI Nashik is arranging study circle classes from Jan 2011 which will enable prospective candidates to take up the CISA certification examination in June 2011.
